## The British Columbian.

NEW WESTMINSTER, SATURDAY, APR. 16, 1864.  
THE UNION QUESTION.

The party in Victoria who have, during the past three or four years, so strenuously advocated a union of these Colonies, or, at least, some arrangement or connection by which the lesser strings of the greater, have of late placed themselves in a rather unhappy and equivocal position before the public; and perhaps the most extraordinary phase of the whole performance is the fact that Mr. DeCosmos is found working with Dr. Helmcken, the representative of Hudson Bay influence, in an attempt to throw the Colonial Government into confusion, insult the new Governor as well as the Duke of Newcastle and disgrace every British subject in the Colony, in order, as they are silly enough to imagine, to force upon the Imperial Government a union which fair and constitutional means would not accomplish, and even go so far as to threaten that unless they get what they ask they will throw off their allegiance to that Sovereign to whom they-but the other day made such loud professions of undying loyalty and attachment! Shame, Helmcken! Shame, DeCosmos! If the people of Victoria are as truly British as they profess to be, and as the proceedings at a recent public meeting would seem to prove them to be, your doom is sealed. For any constituency on the Island to return either of you would be to proclaim such constituency unworthy of the name of Britons.

But what a lamentable lack of common sense is displayed by these men. If a union is to be consummated now it must be brought about, to a very great extent through the medium of the Governors of the respective Colonies sought to be united. The day is gone, never to return, when a one-sided union could possibly be perpetrated; both must now be consenting parties. We consider the course lately adopted by Helmcken, DeCosmos & Co. as most thoroughly calculated to defeat the very object they profess to promote. Their conduct will not only weaken their party by causing every man who has the slightest feeling of self-respect to desert it in disgust, but it will weaken their influence with Governor Kennedy, and, as a matter of course, with the Imperial Government, while it will also tend to render any connection still more obnoxious to this Colony. While, therefore, the people of Victoria have nobly redeemed their character by the emphatic expression of opinion on Monday night, the union clique have thoroughly disgraced themselves in the eyes of every sensible British subject in either Colony, and have rendered it less probable that a union will ever take place.

Meanwhile the position occupied by the new Governor, who was received with so much enthusiasm the other day, is rendered anything but desirable. Thrust into a hotel where his family have no privacy beyond their own sleeping rooms, where they cannot step outside without being on the streets, he is informed that they will not house him even temporarily—that they will not pay either the passage or salary of his Private Secretary—that they will not pay his own salary! All this must be most painful to the Governor. The action taken by the people has, however, narrowed the thing down, and placed the disgrace upon the right shoulder. A disgrace to the Colony, as such, it undoubtedly is; yet the people have saved their reputation as far as lay in their power by marking, in the most decided manner, their entire disapprobation of the action of the House of Assembly. The Governor has the satisfaction of knowing that he has the hearts of the people, and that the House does not represent public sentiment—nay, has outraged it. Out of evil often comes good; and we are disposed to think that much good will ultimately flow from this embroglio. Until the power of the old Hudson Bay Family Compact is broken up we cannot look for either sound policy or enlightened legislation in the neighboring Colony; and we are disposed to think that the course recently adopted by that party will tend to hasten that earnestly-to-be-hoped-for consummation.

### BENSON'S WATCHES AND CLOCKS.

WATCH AND CLOCK MAKER, BY SPECIAL APPOINTMENT, TO HIS ROYAL HIGHNESS THE PRINCE OF WALES.

Opinions of the London Press upon Benson's Great Clock and Watches in the Exhibition, 1862.

"As a sample of English clock-work on a large scale, the works of this are probably the finest ever seen in this country. No Chronometer can be fitted with more perfect

or carefully adjusted mechanism."—*Times*, June 11, 1862.

"A triumph of ingenuity."—*Telegraph*, March 31, 1862.

"A more splendidly-finished piece of mechanism we have never seen."—*Standard*, June 17, 1862.

"Some of them are of great beauty; and if the English watch-trade only follow up with the same spirit and success this first attempt to compete with foreigners in decorative watches, there seems to be no reason why we should not get the trade entirely into our own hands."—*Times*, June 23, 1862.

"Ranged around the base of the clock were the Watches which Mr. Benson exhibited, and which have been universally admired for the beauty and elegance of the designs engraved upon them. The movements are of the finest quality which the art of horology is at present capable of producing. The clock and watches were objects of great attraction, and well repaid the trouble of an inspection."—*Illustrated London News*, November 8, 1862.

NEW WESTMINSTER, SATURDAY, APR. 16, 1864.

THE "FETE" AND "BANQUET."

We felt disposed to allow the retiring Governor to depart from these shores in peace; but the course adopted by injudicious friends of his forces us to depart in some measure from the line of conduct we had marked out, inasmuch as we feel called upon to make a few comments upon a notice which has made its appearance in the Victoria papers, purporting to be a report of a "fete" and "banquet" given to Governor Douglas, and which, if uncontradicted, would make erroneous impressions abroad. In discharging this duty—painful and delicate under the circumstances—we shall avoid, as far as may consist with the demands of justice, making it a personal matter with His Excellency, believing, as we do, that over-zealous and injudicious friends are more to blame than he is.

Of the "fete" at the Government House on Thursday we have nothing to say beyond the passing remark that the party was indeed "select;" but the fete alluded to was not given to but by Governor Douglas, in honor of the birth of the young Prince. It is, therefore, exceedingly unfair, not to say indecent, for the friends of Governor Douglas to transmute that occasion into a demonstration of respect to the very gentleman who gave it. To give the picnic which took place on Thursday week such a turn is insulting to the object of it as well as to those who attended, and cannot but shock the good sense of the very party it is sought thus surreptitiously to glorify.

The published report of the "banquet," so called, which was nothing more than a private dinner, given chiefly by the Civil Service to His Excellency Governor Douglas on his retirement, and at which there certainly were not a baker's dozen unofficial resident British subjects, is both unfair and untrue. From the fact that that report appeared simultaneously in the two leading Victoria papers we may fairly assume that it was supplied to them by some one who was at the dinner, although nothing is said as to the source from which it was received; it would, therefore, be unfair to charge these journals with knowingly promulgating the grossest misrepresentation. We speak advisedly when we say the dinner was a private one, as it was distinctly stated to be such by its chief promoters. We cannot say positively how many were present upon that occasion, although we are assured by gentlemen who were there that the actual number falls very much below what is stated in the published report. The report alluded to says:

"The only unpleasant circumstance occurred when 'the Press' was proposed, a storm of hisses drowning the proposer's voice. Mr. Walkem immediately rose and responded on behalf of the Victoria Press, and was received with vociferous cheering."

Now, the animus of this passage is very plain. The impression is sought to be made that the local Press has become so unpopular as to call down "a storm of hisses," whereas the Victoria Press stands so high as to be greeted with "vociferous cheering." So much for the object, now for the facts. When the toast "The Press" was proposed, Dr. Black, who had by that time become the victim of a certain failing, sprang to his feet and expressed himself as entertaining supreme contempt for the Press, and his remarks very properly elicited hisses. Mr. Walkem responded to the toast in appropriate terms, but did not respond "on behalf of the Victoria Press," but generally. Our authority for this correction is the Attorney-General and Mr. Walkem. Were it as reported, we certainly could not take the act as any disparagement to the local Press, as we are quite aware there were a number of "toadies" there who lacked not the wish to hiss an institution they have little cause to love, and have not the capacity to appreciate. Indeed, we hold the hisses of some in higher esteem and count them a greater compliment than we do the cheers of others. But, be that as it may, we are assured by the abovementioned gentlemen that the Press, either local or general, was not hissed, but the very reverse.

Next we find Mr. Holbrook's name figuring as responding to a toast, whereas that gentleman did not go to the dinner at all! We need hardly say that Mr. Homer, Mr. Holbrook, Mr. Dickinson, Mr. Scott, did not go near it; nor, indeed, did any of our prominent citizens, if we may ex-

cept one solitary case. It was not, as we have already said, a people's demonstration at all.

The next point worthy of notice is an account of the presentation of an address to Governor Douglas, which is said to have borne the names of upwards of 900 residents of British Columbia. And upon the deputation who presented this address we find two bankrupts, a Cariboo constable and a body servant of Commissioner O'Reilly! A pretty deputation truly to present the monster address from the people of British Columbia!

The whole thing is too absurd even to be worth exposing. But how, when or where was this address manufactured? We cannot find a resident British subject here who ever saw the document, much less was asked to sign it. Is this illegitimate paper the offspring of the Hon. R. T. Smith, who was exempted from Legislative duties all winter in order to allow him to travel through both Colonies? And, if so, how many signatures did he obtain in Victoria? If Governor Douglas is the popular man a few toadying friends would make him, why observe such secrecy in getting up an address? Why carefully conceal it from the people of New Westminster, who comprise no insignificant portion of the resident population of the Colony? The fact is the whole thing from beginning to end is a piece of miserable chicanery, which would not stand the light. We challenge the promoters of the address to publish the 900 names said to be attached to it. We must say, in conclusion, that if suspicion be correct in pointing to Mr. Smith as the father of the address, it is rather an odd occupation to engage his attention during the greater part of the session of the Council to which he was elected by a sub-official of Yale. But the names; the public want to see the 900 names. Give us the names, Mr. Smith. It is hardly fair that such a document should go to the Duke of Newcastle as coming from the people of British Columbia and be smuggled through in this fashion. It is scarcely honorable to manufacture in secret an address containing sentiments which nine-tenths of the resident British subjects could not subscribe to, and send it off in their name without ever affording them an opportunity either to sign it or refuse to do so. Fie, fie. The last act indeed caps the climax.

In looking a little farther down the column containing this extraordinary report we find it stated that on Friday an address was presented from the Town Council. This is as much at variance with the truth as are the other portions of the report. The subject of presenting Governor Douglas with an address was never as much mooted in the Town Council. Surely the cause must be a bad one when its promoters resort to such unscrupulous means to gain their end.

## The British Columbian.

NEW WESTMINSTER, SATURDAY, APR. 16, 1864.

## BANK NOTE ACT.

This Act, which is now before the Legislative Council, and which we publish elsewhere, deserves some notice. The first clause seems proper enough at first sight, but its practical effect will be in the first instance to give a monopoly of the trade of this Colony to the Bank of British Columbia, a result which cannot but operate injuriously in Cariboo at least, and a result which we are by no means sure was not contemplated by the framers of the Bill. In introducing a Banking law in this Colony the greatest care ought to be observed not only to guard the public against fraud but to avoid monopoly, or undue advantage to any particular Bank or class of Banks. A Bank holding a Royal Charter and having headquarters in London, with simply half the shares paid up, would be allowed under the proposed Act to come into this Colony and issue notes without any arrangement for redeeming those notes within the Colony. We think that Banks, whether holding Royal or Colonial Charters, should be required to keep cash deposits in the Colony sufficient to redeem the amount of paper issued. Let all be placed upon equal footing, while all should be compelled to give substantial guarantee of ability to redeem their own paper within the Colony where such paper is issued. We trust the Legislative Council will be very cautious about passing a Banking Act, and will not entertain the idea of passing the proposed one in its present shape. Why should we be so much less liberal and general in our Banking laws than the neighboring Colony? Indeed the very contiguity of the two Colonies would seem to suggest the propriety of assimilating as much as possible the Banking laws of both.

## Arrival of Gov. Seymour at Victoria.

His Excellency Frederick Seymour, Governor of British Columbia, and suite arrived at Victoria by the *Panama* on Wednesday. His Excellency is stopping at St. George's Hotel, and is expected to come up by one of H. M. gunboats on Wednesday next. The Colonial and Private Secretaries accompany him.

VICTORIA ITEMS.—From Victoria files received by the *Enterprise* last evening we glean the following news:—Her Majesty's ship *Tribune*, Capt. Lord Gifford, R. N., arrived at Esquimalt on Wednesday. Victoria just now contains three (?) Governors and a Lord.—The Butte Inlet road property was sold by auction on Wednesday. It was knocked down to Mr. A. Waddington at \$14,000, although it is said to have cost \$50,000. We wish him luck of his bargain.—Mayor Harris and three other gentlemen waited on Governor Kennedy on Tuesday with an address, embodying the resolutions passed at the public meeting on Monday, and containing further assurance of the respect and good wishes of the people. His Excellency thanked the people of Victoria warmly for their kind assurances, but declined their offer to provide him with a residence.—The question of union was discussed in the Legislative Council on Thursday. Attorney-General Cary strongly opposed it.

PRETTY HEAVY, BUT TRUE.—In replying to the deputation who presented the address from the people of Victoria on Tuesday Governor Kennedy is reported in the *Chronicle* to have said:—"The Legislature, by the resolutions sent home in February, say that £3,000 is too much for your Governor to receive. If that be so, gentlemen, I don't know what kind of officers you will get for less. I think you have had a good deal too much of cheap officers, and found them pretty expensive. [Laughter, and "yes."]

EXPORTS.—The *General Harney* took in 60,000 feet of lumber on Wednesday at Mr. Smith's Mill on Burrard Inlet. This is the third cargo within a month. We understand the lumber from the Inlet finds a ready market in Victoria, as it is of a superior quality.

NO NEWS FROM ABOVE.—The steamers *Reliance*, *Lilloet* and *Hope* returned from above yesterday but brought no news from the interior. *Barnard's* Cariboo Express was hourly expected at Yale. *Dietz & Nelson's* Express brought down \$5,000 in treasure.

ECCELESIASTICAL.—The Rev. John Sheepshanks, Rector of Holy Trinity, leaves to-day on a visit to England. Mr. Sheepshanks came to this city in the latter part of 1859, and has ministered to the denomination which he represents with very great acceptance ever since. During that time he has succeeded in erecting a large and comfortable Church and a very respectable Parsonage, and has gathered around him a large and united congregation. His devotion to the great work of his Master has won for him the respect of all parties while his urbanity and catholicity of spirit have secured the good will of the entire community. We heartily wish Mr. Sheepshanks a safe and pleasant voyage and a speedy return. During his absence the Venerable Archdeacon Wright, assisted by Rev. H. Reeve of Yale, will minister to the congregation of Holy Trinity.

SURVEYOR GENERAL.—It is rumored that J. W. Trutch Esq. of Victoria has been offered the appointment of Surveyor General of British Columbia.

THE EASTERN NEWS is up to the 4th inst., but is unimportant. No notable event had transpired, nor is there a prospect of anything startling being done for some time. In Europe matters do not appear to have taken any decided turn either way, although it was rumored that Austria had accepted an armistice, we must confess there is little to encourage the hope of speedy peace. Indeed a European revolution is far from improbable.

HE COMES.—It is probable that before we appear before our readers again Governor Seymour will be amongst us. He will, in a very important sense, be our first Governor; for although we had a small share in a Victoria Governor we never had one we could call our own. The loyal people of the capital require no hint from us as to their duty in giving His Excellency a hearty welcome.

THE LAND SALE on Wednesday passed off very well considering the tightness of the Money Market. All the suburban lots were sold with the exception of two. Amount of sale \$6591.81.

LEGISLATIVE COUNCIL.—This body met on Wednesday and Thursday, but there was not a quorum upon either occasion, so they adjourned till Monday.

WHEW!—The *Colonist*, in commenting upon the course of Dr. Helmcken on the recent obnoxious resolutions, says:—"His remarks, no doubt, were inexcusable, on the ground of Parliamentary courtesy; but, although twitting the Doctor in a few issues back on the Hudson's Bay characteristics of turning everything to worldly advantage, we must do the gentleman the justice to say that he is the best of the Company's adherents, and as loyal as it is possible for a warm supporter of the past administration to be."

Are we to understand from this that a man could not be a warm supporter of the Douglas administration and be loyal?

## EXPLANATION.

The following note from the Hon. P. H. Nind gives rise to a suspicion of foul dealing somewhere. Why is his presence in the Council not required? The mistake we fell into is easily explained. Debarred from all access to the Council Chamber, we are obliged to glean what information we can outside, as to the doings of that "Star Chamber;" and if inaccuracies occasionally find their way into our reports the fault is less our own than that of the members who voted for "Closed doors."

DOUGLAS, April 4th, 1864.

SIR,—In correction of a paragraph in your issue of the 2nd instant under the head of "Legislative Council," imputing to me apology as well as explanation for my absence from the Council, I have the honor to inform you that the explanation of my absence precluded all idea of apology as it was the result of an express intimation from the Governor "that my presence was not required in the Council." It was and is my particular wish to resume my seat in the Council as I take much interest in its proceedings. Trusting that you will kindly revise this apparently slight error which has doubtless arisen from an innocent mistake on your part.

I have the honor to be,  
Your obedient servant,  
PHILIP HENRY NIND, M. L. C.

To the Editor of the British Columbian.

SIR,—I observe by your paper of Wednesday—for I never see the *Government Gazette*—that Mr. Spalding has just been gazetted as Postmaster-General of British Columbia! It was most fitting that Governor Douglas's last official act should be the elevation of Mr. Spalding, a gentleman possessing the most astute talents and industrious business habits, coupled with an agreeable and obliging turn—in short, peculiarly qualified to fill, with credit to himself and satisfaction to the public, the duties of Postmaster-General, and we presume, of Postmaster-General too. His talents are of far too high an order to be confined to the petty drudgery of village Postmaster, and so His Excellency has very properly promoted him.

But I must confess I was greatly surprised at seeing the announcement, as, from the fact that Mr. Spalding has used the title all along, I supposed he was P. M. G. these eighteen months past. And, again, I was surprised because I was not aware that the Governor had the power to appoint and gazette a P. M. G. I was simple enough to imagine that he could only recommend, and that it lay with the Home Government to appoint and gazette. How is this? Do you think the thing is genuine?

HIPPOPOTAMUS.

## LETTER FROM LYTTON.

To the Editor of the British Columbian.

DEAR SIR:—After a long tramp under a pretty hot sun it does one good to fall into such hands as those of Mr. Haunter, proprietor of the Globe Hotel of this city; for although it blows cold in Lytton you can always find plenty and comfort within his well regulated establishment. We met quite a number of travellers here, amongst others a gentleman who had just arrived from Williams Creek. There was not much doing there yet, but all were anticipating a lively season. Mr. George Evizar had just arrived here from Shuswap; he left there on the 5th, making the trip to here in five days. He and his partners were working in a claim eight miles up Cherry Creek, and took out \$16 in one day with a rocker. Some Indians who were working on the next claim took out \$15. He started back yesterday morning, five men from here going along with him. They took an Indian pack train of 6 horses loaded with provisions, for which they pay 7 cents per lb., to the Kamloops, where they will have to get another train,

as there is 150 miles further to go, and these Indians will not go past the Kamloops, as they are on bad terms with the native inhabitants of that district. Business is very quiet, not many travellers being on the road. The weather has been good here for some time, and would be pleasant were it not for the cold wind which is nearly always blowing here.—Yours,

Lytton, April 12th, 1864.

### Poetry.

**"DEAD."**  
[From "Poems by a Painter."]  
The seasons weave their ancient dance,  
The restless ocean ebbs and flows,  
The world rolls on through day and dark,  
Regardless of our joys or woes!  
Still up the breezy western slopes  
The reaper girls, like apples brown,  
Bend singing to their gleeful toil,  
And sweep the golden harvest down:  
Still where the slanting sunlight glides  
The poles of cedar and of pine,  
Chants the lone blackbird from the brake  
With melancholy voice divine:  
Still all about the mossy tracks  
Hums at his darg the wood-wren bee;  
Still stately the corn-crake's note  
Comes to me from the upland tea.  
Still round the forest bowers she loved  
The woodbine trails its rich festoons;  
The slumbrous poppies burst and fall  
Beneath the silent autumn moons.  
Nor here within, one touch of change!  
The footstool—the embroidered chair—  
The books—the arras on the wall—  
The harp—the music—all are there.  
No touch of change! I close my eyes—  
It cannot be she comes no more!  
I hear the rustling of her dress,  
I hear her footstep on the floor;  
I feel her breath upon my brow,  
I feel her kiss upon my cheek.  
Down, phantoms of the buried past!  
Down, or my heavy heart must break.

### Miscellaneous Items.

**KING JAMES II. AND THE ASSASSINS.**—One Mr. More, a Yorkshire gentleman, who had resided for some time at Dunkirk, came to St. Germain to King James, with proposals of a project that might do great service; it being a newly invented gun that would execute its charge, 150 yards, without any noise, fire, or smoke. This experiment was proved before King James, on the north leads of the Castle of St. Germain, next the gardens, one morning, nobody being suffered to while to enter the garden; and a very small number, not exceeding five, were with the King upon the leads—namely, the King, the Duke of Albemarle, Father Saunders, Mr. More, and myself. Mr. More being my old acquaintance, and having been formerly concerned in several experiments with me, spoke to the King of me, and therefore it was that I was admitted. I saw the gun perform the length of the leads, which pleased the King so well, that he said, "What mischief might not any man do with such an engine?" "Ay," answered Albemarle, "such a thing as this would do the Prince of Orange's business." Says Saunders, "Had we but a man that had the bravery to undertake it." Says More, "An't please your Majesty, I shall get one shall effectually do it," naming one Salvin, a kinsman of his. Whereupon Salvin was sent for, and he received the Eucharist to perform it the first opportunity, having the assurance of the Pope's plenary pardon for his soul if he happened to lose his life in the attempt. —Court and Society from Elizabeth to Anne, by the Duke of Manchester.

**A ROYAL BABY STORY.**—M. D. Conway, in a letter to the Boston Commonwealth, says: I learn that there was quite a rebellion at Windsor Castle. The princess vehemently opposed having a wet nurse, and the prince took her side, and could not see why she should not be allowed to nurse the babe, as she strongly desired to do. But she was told that the court traditions could not be set aside; never was English prince or princess yet nursed by its own mother. So the healthy and virtuous Mrs. O'Somebody was sent for, and the princess had a long cry. This is a true story, and somewhat more valuable than ordinary court gossip.

**IRRIGATION BY STEAM.**—A plan for irrigating the lands lying along the Sacramento river will be put into operation in a few days. It is proposed to elevate the waters of that stream by means of a steam engine upon the adjoining lands. A. J. Scoggins of Colusa has an engine now upon his farm, and he informs us, with this in full blast, he can completely inundate his farm and keep it so as long as he chooses. This is the first time the experiment has been tried, and if it proves successful, as we can see no reason to doubt, it will open a new era to those located near the river. There are many localities along the Feather and Yuba rivers that, unless rain soon falls, will be entirely valueless, which by this process can be made a source of profit to the owners. —Marysville Express.

**THE DISBANDMENT OF CAPTAIN SHERARD OSBORNE'S CHINESE SQUADRON.**—In a private letter received at Portsmouth from the Kangaroo, one of the vessel composing the Anglo-Chinese squadron under the command of Captain Sherard Osborne, we have the following particulars:—"The Chinese Government wished to supersede Captain Osborne, and make him subordinate to the local mandarins; but he explained to them that by so doing they would oblige him to resign, as he would be breaking the promises he made to the home Government in taking service under any but the Imperial Government, so they have determined to do without us altogether, giving up all the ships, and settling all demands up to the month of September next year (1864)."

## THE SUFFERER'S BEST FRIEND.

### HOLLOWAY'S PILLS.

All Disorders affecting the Liver, Stomach and Bowels.

These Pills can be confidently recommended as the most simple and certain remedy for indigestion, flatulency, acidity, heartburn, colic, constipation, and all the many maladies resulting from disordered stomach or bowels. In all diseases it is of primary importance to set the stomach right. These Pills are purifiers, alternatives, and strengtheners of the stomach. They may be taken under any circumstances. Though powerful, tonic, and satisfactorily aperient, they are mild in their operation, and beneficial to the whole system.

**Weakness and Debility, Nervous Irritability.**

The wholesale effect exercised by these admirable Pills over the blood and fluids generally is like a charm in dispelling low spirits, and restoring cheerfulness. In general aperient qualities well fit them for a domestic medicine, particularly for females of all ages and periods of life. They never betray any disagreeable irritating qualities; they quickly eject all impurities from the system, and regulate every function of the body, giving wonderful tone and energy to weak and debilitated persons, while they brace and strengthen the nervous system in a most extraordinary manner.

**To Regain Health, Strength and Vigour.**

Whenever persons find themselves in that state termed a "little out of health," and there are so many causes at work to shorten life, it is necessary that Holloway's Pills, the finest purifier of the blood ever known, should be at once taken, as they not only rid both solids and fluids of all morbid matters, but regulate all disordered actions, and strengthen the frame in a most extraordinary manner.

**Old Coughs, Colds and Asthmatical Affections.**

These Pills, assisted in their action by rubbing Holloway's Ointment very effectively twice a day upon the throat and chest, and keeping those parts covered with the preparation, will be found the most effectual remedy for asthma, coughs, colds, bronchitis, and influenza. These remedies tranquilize the hurried breathing, soothe the irritated air-tubes, and assist in dislodging the phlegm which stops up the air-passages. This treatment has proved wonderfully efficient in not only curing old settled colds, but asthma of many years standing, and when patients who were in so bad a state as not able to lie down on their beds lest they be choked with phlegm.

**Derangement and Distention of the Bowels, Flatulency, Diarrhoea and Dysentery.**

Any symptoms of the above complaints should be immediately met by appropriate doses of these Pills, according to the printed directions; delay may be followed by disastrous consequences. These Pills are a certain remedy for all the ailments of the alimentary canal, they secure the thorough digestion of the food, and act most kindly on the stomach, liver, bowels and kidneys. As a household medicine they are unrivalled, and should always be at hand.

**Very Important, of Costiveness Beware.**

Rarely but little notice is taken of costiveness, yet, at certain periods, it is a sure sign that danger is near. All who are seized with apoplexy and paralysis, have previously suffered from costiveness. In the former case the blood flows to the head, a small vein is ruptured on the brain, and we know the rest. Let wives counsel their husbands, and husbands their wives, never to go to bed a second night, if the bowels have not been properly moved during the day, particularly if they feel heavy and drowsy. A few gentle doses of these fine Pills will regulate the circulation of the blood, and all dangerous symptoms.

Holloway's Pills are the best remedy known in the world for the following diseases:

Asthma	Fever of all kinds	Scrofula, or King's Evil

## ALL CURES MADE EASY!!

### HOLLOWAY'S OINTMENT.

Bad Legs, Ulcerous Sores, Bad Breasts and Old Wounds.

No description of wound, sore, or ulcer can resist the healing properties of this excellent Ointment. The worst cases readily assume a healthy appearance when this medicament is applied; sound flesh springs up from the bottom of the wound, inflammation of the surrounding skin is arrested, and a complete and permanent cure quickly follows the use of the Ointment.

**Piles, Fistulas and Internal Inflammation.**

These distressing and weakening diseases may with certainty be cured by the sufferers themselves, if they will use Holloway's Ointment, and closely attend to the printed instructions. It should be well rubbed upon the neighboring parts, when all obnoxious matter will be removed. A poultice of bread and water may sometimes be applied at bed time with advantage; and most scrupulous cleanliness must be observed. If those who read this paragraph will bring it under the notice of such of their acquaintances whom it may concern, they will render a service that will never be forgotten, as a cure is certain.

**Rheumatism, Gout & Neuralgia.**

Nothing has the power of reducing inflammation and subduing pain in these complaints in the same degree as Holloway's cooling Ointment, and purifying Pills. When used simultaneously they drive all inflammation and depravities from the system, subdue and remove all enlargement of the joints, and leave the sinews and muscles lax and uncontracted. A cure may always be effected, even under the worst circumstances, if the use of these medicines be persevered in.

**Eruptions, Scald Head, Ringworm & other Skin Diseases.**

After fomentation with warm water, almost relief and speediest cure can be readily obtained in all complaints affecting the skin and joints, by the simultaneous use of the Ointment and Pills. But it must be remembered that nearly all skin diseases indicate the depravity of the blood, and consequently the liver and stomach. Consequently, in many cases, time is required to purify the blood, which will be effected by a judicious use of the Pills. The general health will be readily improved, although the eruption may be driven out more freely than before, and which should not be promoted; perseverance is necessary.

**Sore Throats, Diphtheria, Quinsy, Mumps & all other Derangements of the Throat.**

On the appearance of any of these maladies the Ointment should be well rubbed at least three times a day upon the neck and upper part of the chest, so as to penetrate to the glands, as salt is forced into meat; this course will at once remove inflammation and ulceration. The worst cases will yield to this treatment by following the printed directions.

**Scrofula or King's Evil and Swelling of the Glands.**

This class of cases may be cured by Holloway's purifying Pills and Ointment, as their double action of purifying the blood and strengthening the system renders them more suitable than any other remedy for all complaints of a scrofulous nature. As the blood is impure the liver, stomach and bowels, being much deranged, require purifying medicine to bring about a cure.

Both the Ointment and Pills should be used in the following cases:—

Bad Legs.	Chapped Hands.	Scalds.
Bad Breasts.	Contracted and Stiff Joints.	Sore Nipples.
Burns.	Elephantiasis.	Sore-throats.
Bunions.	Fistulas.	Skin-diseases.
Bite of Mosquitoes and Sand-Flies.	Gout.	Scurvy.
Coco-bay.	Glandular Swellings.	Sore-heads.
Chiefo-foot.	Lumbago.	Tumors.
Corns (soft).	Piles.	Ulcers.
Cancers.	Rheumatism.	Wounds.
Chilblains.		Yaws.
